

CED Tasks:

In support of its vision and mission, the CED is focusing on:

- 1. Website development** Creating Global Clinical Engineering Networking tool, chat room, and archiving center
- 2. Global Clinical Engineering knowledge exchange and collaboration**
 - e-Conferencing - global Clinical Engineering communication tools
 - Investigate CE-IT convergence - education and leadership impact
 - Annual board meeting and scientific program presentation @ Medicon 2010
 - Initiate standards listing clearing house
 - Promote sharing of exchange and mentoring programs
(student/faculty/practitioner)
 - Support ACEW 25th anniversary reunion @ Feb. 2010 Atlanta, Georgia, USA
 - Support the Bangkok, Thailand program @ Sept. 2010
- 3. Global Clinical Engineering Survey**
 - Current state of the profession (individuals and institutions)
 - Global Clinical Engineering directory formatting and printing
- 4. Clinical Engineering education and technical manuscripts translation**
- 5. Global Clinical Engineering Competency**
 - Global body of knowledge
 - Certification
 - Update advanced clinical engineering curriculum
 - Benchmarking support services
 - Clinical engineering recognition and award
- 6. Present capacity and future needs for manpower and competencies in Clinical Engineering**
 - Support exchange visits with regional societies to engage them closer with CED and its international benchmarking.
