## INTERNATIONAL FEDERATION FOR MEDICAL AND BIOLOGICAL ENGINEERING

*Affiliated with the International Union for Physical and Engineering Sciences in Medicine*

*Office of the Secretary-General: Prof. K. P. Lin*

### **Brief Biography (200 words)**

Born in Gorizia, 1972, I live and work in Italy.

Graduated in Electronic Engineering, with a specialization in Clinical Engineering, I worked as a contract researcher at the University of Trieste, from 1999 to 2001. Technical director of TSH Consulting, private company supporting healthcare structures in the areas of Clinical Engineering, Safety at Work and Risk Management, from 2002 to 2007. Head of the Safety Department of Sincrotrone Trieste S.C.p.A., a multidisciplinary Synchrotron Light Laboratory in Trieste - Italy, from 2007 to 2009. Clinical Engineer at TBS Group S.p.A. ([www.tbsgroup.com](http://www.tbsgroup.com)), within the "Medical Devices & ICT Systems Business Unit – Foreign Operations", from 2010 to 2016.

My current occupation is Freelance professional engineer, consultant for Public Agencies, Health Facilities and Service Companies in the areas of Clinical Engineering, Information Technology, Risk Management, Training, Quality. I'm a Partner of ECRI Institute ([www.ecri.org](http://www.ecri.org)), a collaborator of EduCare Srl ([www.edu-care.eu.com](http://www.edu-care.eu.com)) and a contract professor at different universities in Italy.

I'm the Vice-president of the Italian Clinical Engineers Association, an Individual Member of the American College of Clinical Engineering, a member of the Italian Health Technology Assessment Society and a Collaborator of the Clinical Engineering Division of IFMBE.

### **Position Statement (200 words)**

As a coordinator of the international relationships working group of the Italian Association of Clinical Engineers, and thanks to my work at the foreign operations department at TBS Group, I have developed several relationships with colleagues of different countries (USA, Brasil, Spain, France, UK, Holland, Switzerland, etc.) and I have an international mindset and working experience.

Having participated in several congresses and initiatives of IFMBE (CE Day, II ICEHTMC 2017 in Sao Paulo, MBEC 2014 Dubrovnik, etc.) I have an established network of relationships within the CED and the whole IFMBE and I would put this at disposal of the CED to contribute to its further developments and initiatives.

Moreover, in these years I have developed relationships with different international institutions (WHO, ECRI Institute, EAMBES, etc.) and I would put this at service for CED.

Being the Vice-president of AIC I'm deeply involved with the initiatives of our national Association that is leading an effort to build relationships among the clinical engineering societies of Europe and is organising the III ICEHTMC in 2019, therefore I'll be able to act as a liaison between our very active Association and CED for the further development of international activities.

## INTERNATIONAL FEDERATION FOR MEDICAL AND BIOLOGICAL ENGINEERING

*Affiliated with the International Union for Physical and Engineering Sciences in Medicine*

*Office of the Secretary-General: Prof. K. P. Lin*

I agree to have my name placed in nomination for the above position, and if elected, to serve for the three or six-year term specified.
