

ICBHI 2019

International Conference on Biomedical and Health Informatics

Taipei, 17-20 April 2019

**Future Trends of Biomedical and Health Informatics,
& Cybersecurity in Medical Devices**

CALL FOR PAPERS

Important Dates

- Paper submission due:
December 20, 2018
- Notification of acceptance:
January 20, 2019
- Paper final form submission:
February 20, 2019
- Early registration:
until January 20, 2019

Conference Venue:

NTUH International
Convention Center, Taipei

Conference Contact:

ICBHI 2019 Secretariat
Email: ttmd@cycu.edu.tw

www.icbhi2019.com

Technical Areas:

- Medical devices, medical imaging, and biosignal processing
- Biomedical informatics
- Cybersecurity and healthcare information
- AI in medical imaging
- Biodata management and analytics
- Advanced mHealth inspired applications
- User interaction systems and data/information exchange
- Applied connected health and integrated care systems
- Personalized health systems
- Preventive and multimorbid disease management tools
- Patient safety and efficient public health systems
- Biomedical informatics and technology education

IUPESM MEP Workshop

The Medical Engineering and Physics Workshop is initiated by IUPESM. The workshop focuses on experience sharing, networking, and collaborating in BMEs and MPs, and AI in medical imaging: opportunities and challenges.

Scientific Challenge

In order to accelerate international academic exchanges, IFMBE hold the 2nd Scientific Challenge in ICBHI'19. Cardiac systolic signal processing will be the main topic. For more information, please visit the website:
